Listens to those who **travel.** Responds to those who **manage.**

Corporate travel and expense management platform.

hoovie

More **simplicity** for travel. More **intelligence** for management.

THOSE WHO TRAVEL

want convenience.

THOSE WHO MANAGE

want control.

THE COMPANY

wants visibility.

houvie

Corporate travel management isn’t about travel. It’s about connections.

Meetings, decisions, deals and relationships. Before boarding, many journeys happen within a single one:

Choices meet policies.

Approvals meet budgets.

Bookings meet schedules.

hoovie handles the technical connections, so you can focus on the **human connections.**

hoovie

One platform.
Three sides connected.

Corporate travel management that connects companies, travelers and agencies, without giving up the governance every business requires.

TRAVELERS **Speed**	Booking without complicated processes.
MANAGERS **Control**	Policy and approval in every choice.
THE AGENCY **Efficiency**	Operates and serves under its own brand.

01 · THOSE WHO TRAVEL

Want to find the right trip, without the hassle.

HOW WE SOLVE IT

Find and book flights and hotels in a simple, integrated experience.

Booking just got simple.

Search

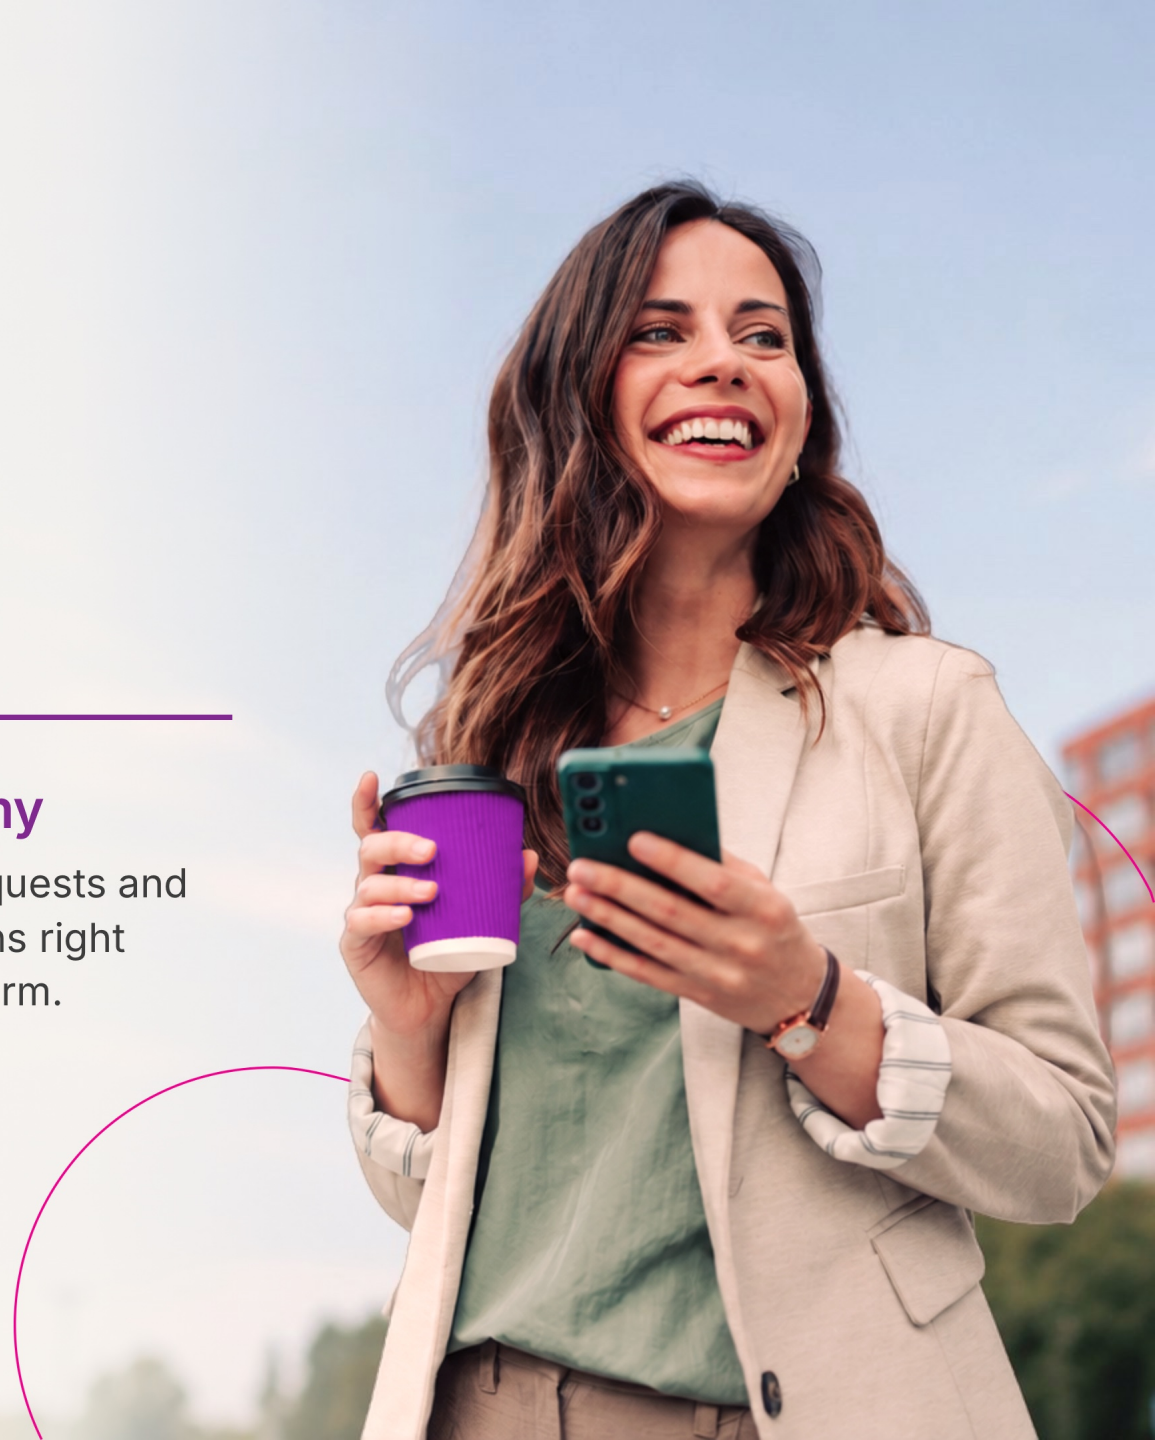

Compare flight and hotel options in one place.

Policy

Find options aligned with the company's travel policy.

Autonomy

Manage requests and cancellations right in the platform.

hoovie

02 · THOSE WHO MANAGE

Need to make sure every trip is aligned with company policy.

HOW WE SOLVE IT

Policies, approvals and payments integrated from the first search.

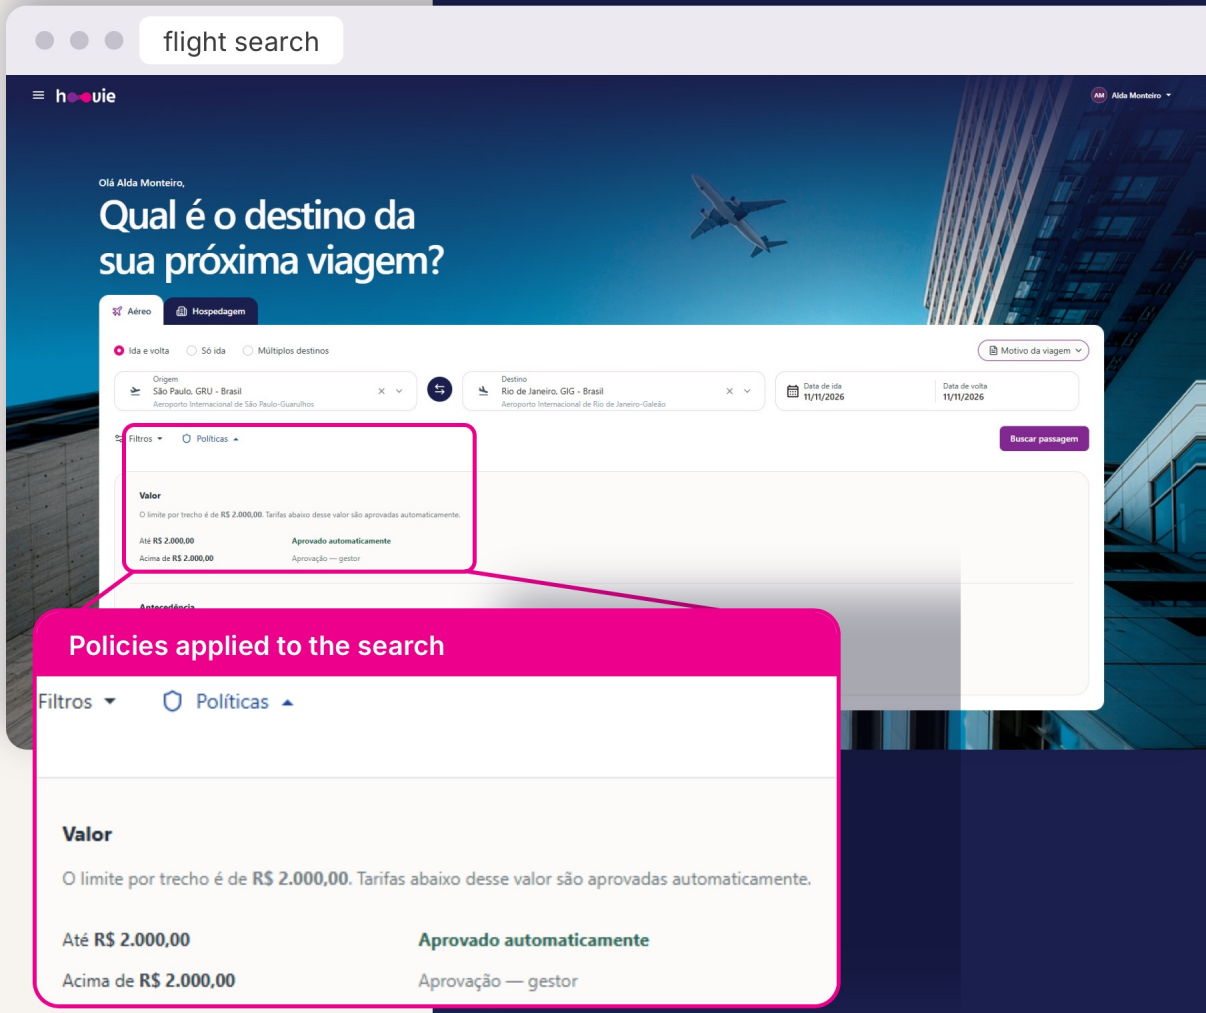

hoovie

Your company’s policy in every choice.

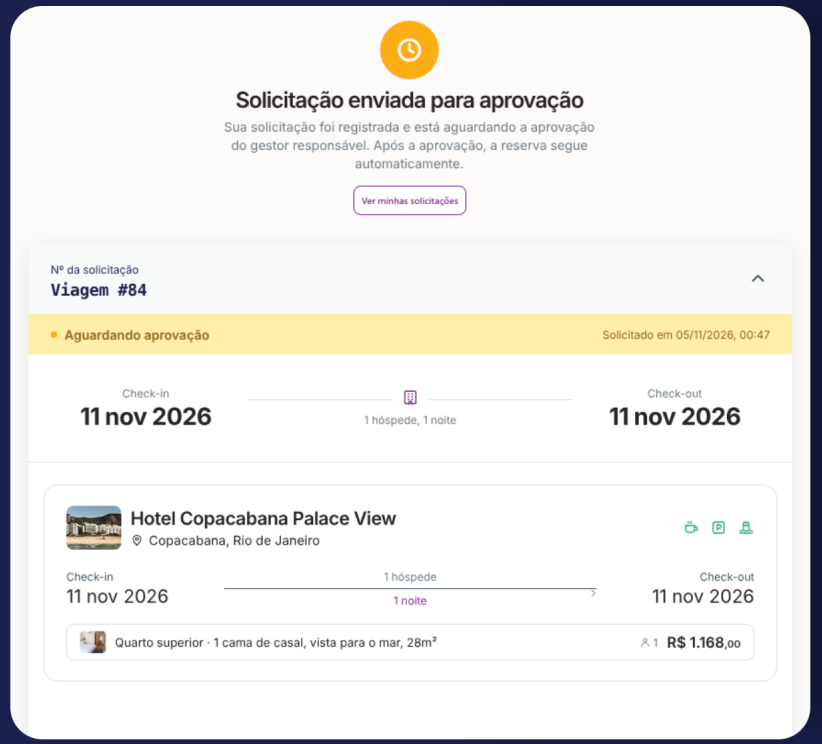

From the first search, travelers see options aligned with the corporate policy. For out-of-policy options, the company decides how the platform should respond:

Flag	Highlights out-of-policy options to guide the choice.
Approve	Routes the request to the defined approval flow.
Block	Prevents booking options that the policy does not allow.

Every request follows your company's policy.

Configurable approval flows, integrated into the travel and payment journey.

AUTOMATIC

Automatic approval, when applicable.

CONFIGURABLE

Sequential or parallel flows.

INTEGRATED

Payment according to policy.

houvie

03 · THE COMPANY

Seeks more efficiency and visibility in travel management.

HOW WE SOLVE IT

More control and centralized information, with expert support from your agency.

hoovie

More visibility and control over your company’s travel.

Visibility

Trips and bookings in one place.

Traceability

Decisions and approvals on record.

Analysis

Information to evaluate the program and support decisions.

PLANNED

Dashboards

Exceptions and policy review.

houie

Less complexity.
More control at every step.

COMMON CHALLENGE		HOW WE SOLVE IT
Policy only shows up after the choice	→	**Policy applied from the first search**
Approvals by email, outside the process	→	**Approvals connected to the journey**
Doubts about how to pay for each item	→	**Payment defined by the policy**
Special requests without trip context	→	**Agency support with the trip context**

TECHNOLOGY AND AI

A new platform, designed to evolve with artificial intelligence.

AI-ready architecture

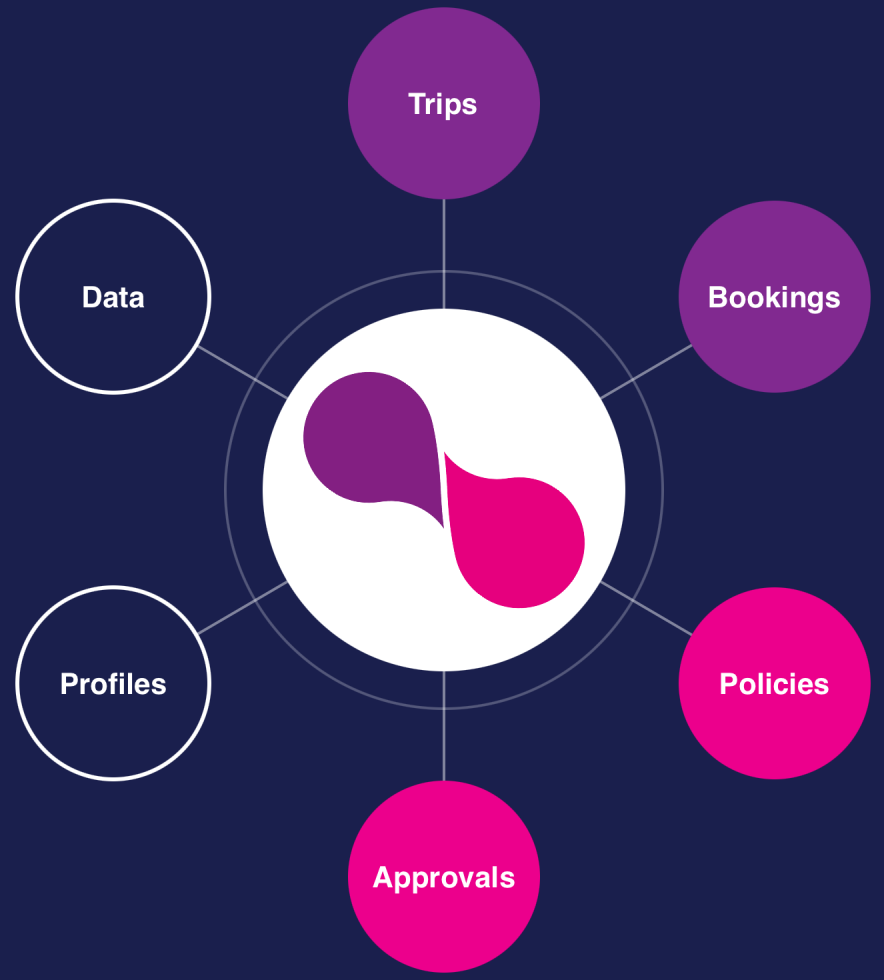

A technology foundation built to enable new experiences and integrations.

Information connected to the journey

Trip, booking and approval data organized to provide context.
